EXPERIENCE

Technical Assistant, **JinGuTai Hardware Company**

Sept. 2020 – Present

Guangdong, China

- Conducting PC hardware repairs and upgrades on 10 computers
- Providing technical support and PC/network troubleshooting for 20 staff members
- Constructed and maintaining internal network system and CCTV system
- Constructed and maintaining company-wide Wi-Fi network

Undergraduate IT Support Assistant, **New York University**

Mar. 2025 – May 2025

New York, NY

- Helped manage Bern Dibner Library's general-purpose technology infrastructure
- Provided desktop and laptop support to public and staff users
- Set up and maintained processes and workflows to keep workstations, laptops, and peripherals documented, well-inventoried, and operationally secure

Research Fellow, **Lumiere Research**

Sept. 2023 – Dec. 2023

Online

- Conducted research and literature review on Cybersecurity and Cryptography
- Discussed the feasibility of Tor network and how it was built
- Discussed the depth of Network Encryption and Anonymity and its balance with ethics

Leader of Coder's Community, **Tsinglan School**

Sept. 2021 – May 2024

Guangdong, China

- Initiated a Scratch elective for 18 elementary students, topics including characters, backgrounds, loops, conditional statements, and variables
- Instituted a Python elective for 20 Grade 5 students, topics including input & output, conditional statements, variables, loops, math calculations, and data type manipulations
- Presented Computer Science concepts to Grade 1 and Grade 2 students in 2022
- Publicized about the phenomenon of "the digital divide" in 2022 and hosted Computer Science Week at Tsinglan School (12/5/2022-12/11/2022)

Group Leader, **WE Service Recognition**

Guangdong, China

- Planned the blueprint of the entire WE Service project
- Created multiple revision packets for AP CSA and Java on the website
- Led members in editing videos and running social media accounts, URL: <https://www.youtube.com/@weservicetsinglan2035>

- Constructed one website for course contents and another for inquiries and related discussions, URL: tsweservice.wordpress.com

PROJECT

[Ongoing] AI-Powered Automatic Clock for Sleep

- Designed the framework of raw data processing and event priority
- Implementing algorithms and improving UI/UX

EDUCATION

New York University, New York, NY
B.A. Computer and Data Science

Sept. 2024 – Present

Relevant Coursework: Parallel Computing, Basic Algorithms, Prob & Stats, Linear Algebra, Data Structure, Discrete Math, OOP, Computer Architecture, Calculus I, II, and III, Intro to Data Science

Tsinglan School, Dongguan, Guangdong
GPA: 4.07/4.0 (Weighted)

Jan. 2020 – May 2024

SKILL

C++, Python, Object-Oriented Programming, Network Infrastructure, Computer Hardware
